# South Korean Workers Turn the Tables on Their Bad Bosses

“South Koreans live with an enormous tolerance for abuse” from the powerful, said one famously bullied advocate. A backlash has erupted.

“Workplace bullying negatively affects not only the individual being bullied, but also the organization as a whole.

Organizations with a pervasive bullying culture see higher turnover rates, lower productivity, increased healthcare costs, higher levels of absenteeism, lower levels of morale, a lack of trust in management and higher litigation costs.”
